WELCOME

“Building the Future, One Vision at a Time”

It is with great pride that we welcome you to Master Buildings Company, where every project begins with a purpose and ends with a mark of excellence. Since our establishment in Jeddah, Saudi Arabia, around 2009–2010, Master Buildings Company has grown into a dynamic and respected force in the construction and development industry.

Our journey began with a simple but powerful idea: to deliver buildings that are not only structurally sound but also beautiful, efficient, and made to last. Today, we stand as a trusted partner for clients across the Kingdom, offering a full range of construction and project development services tailored to meet the unique needs of each client.

At Master Buildings Company, we believe that construction is more than bricks and concrete — it’s about creating spaces that improve lives, support communities, and inspire progress. Every structure we build reflects our commitment to quality, responsibility, and innovation.

Who We Are?

We are a team of passionate professionals — including engineers, architects, designers, project managers, and skilled workers — united by a common goal: to build with excellence and integrity. With years of experience behind us, we approach every new challenge with confidence and care, always putting our clients first.

We understand that every client has a different vision. That’s why we listen closely, plan carefully, and work collaboratively to bring that vision to life. Whether it’s a residential development, commercial space, or a custom-designed structure, we handle each project with attention to detail, technical expertise, and creative thinking.

What We Offer?

Master Buildings Company provides a wide range of services across the construction industry, including:

- General Contracting and Construction Management
- Design-Build Services
- Project Planning and Execution
- Interior and Exterior Finishing
- Renovation and Remodeling
- Electrical, Plumbing, and Mechanical Works (MEP)

Our approach is turnkey — meaning we manage the entire process from concept to completion. We ensure that every phase, from design to delivery, runs smoothly, stays on schedule, and meets the highest industry standards.

> CEO'S MESSAGE

CEO'S MESSAGE

Twenty- five years of continuous growth, is the proof of the momentum that has been maintained at master buildings company General Contracting Company since its incorporation in Jeddah, Saudi Arabia, back in 2001. Years later, viewing its growth and performance, cannot but make me proud of having been successful in establishing ourselves as one of the leading turnkey general contractors who provide total “engineering, procurement, and construction” services. Ours is a dynamic company that has been capable of adjusting to the ever changing and growing needs of our customers and business community members, constantly adding value to their needs and requirements. Providing them with the best work and safety standards in the field of building construction and heavy civil works is our basic motto. The central most important factor in our business philosophy is the way we view and value our long-term relationships with customers. This element, by itself, is one factor that we worked hard to establish and advance over the years. Maintaining professional integrity and work ethics in our dealings with third parties & servicing client requirements to the best of our capabilities are two important factors guiding our daily performance. Master buildings company’ General Contracting Company enjoys the services of a team of highly talented engineers and staff as well as a largely dedicated and well-trained work force. Financials are handled by a team of valued professionals who earned the trust and support of major bankers and financiers. Their efforts have provided us with constant funding needs; thus, allowing us to secure large-scale public and private projects as well as initiate expansion plans in the Middle East, Gulf, and Africa. Shareholders’ equity and private investments have been multiplying. New investments leveraging themselves to acquisitions made in construction related companies specializing in pre-cast & hollow-core concrete, pre-engineered and hot rolled steel works, aluminum and glazing works, trading, as well as crushers and related industries. They all form part of our great big family and complement our main business activities. Those diversified ventures share one single objective intended to reduce our corporate risk factor and give our company an edge over its direct competition. None of this would have been possible without the support of our trusting clients as well as the diligence and skill of our committed staff. The Board of Directors is most grateful to all and each of them. To conclude, allow me to invite you to explore our pre-qualification and see for yourselves few of our successfully accomplished past operations with an eye closely focused on our future goals. For that, we look forward to being your trustworthy partner.

> VISION & MISSION

VISION AND MISSION

To become one of the most prominent groups contributing to the renaissance of the Kingdom of Saudi Arabia and to always maintain a leading position through our history and proven experience in various sectors and through the relationships we have gained in our work in the field of contracting and our dealings with a number of clients in the governmental and private sectors. We are one of the most keen institutions to take care of our clients. This is done by providing the best, finest and most accurate works in various sectors. We have also been keen to work for the comfort of our clients, which is our primary and desired goal stemming from our belief that

(customer service is the basis for the success of any work)

and our belief that honesty, truthfulness, professional commitment and accuracy in implementing work on time are a guarantee for continuity, development and advancement of our group and our society.

Project Name: Jo Malone

Client : El Shayyah Company

Consultant: El Shayyah

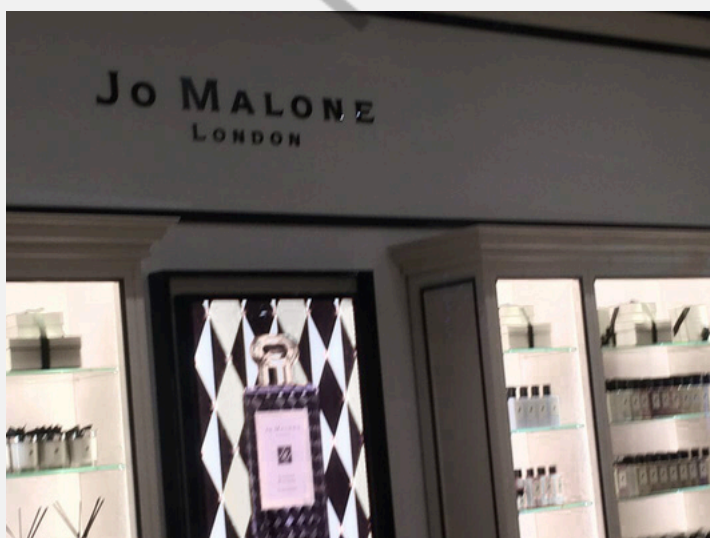

Main Contractor : Master Buildings Company

Location: across the kingdom of Saudi Arabia

Starting \ Ending Date: 2012 ---- 2015

Project Value: 12 Million Riyal

Project Description We take pride in constructing retail spaces that reflect the unique identity of each brand. From the sleek, modern elegance of MAC and Jo Malone London to the vibrant, youthful energy of Claire's and the stylish simplicity of Giordano, every shop was built with premium materials, precise detailing, and brand-aligned aesthetics. Each project showcases our ability to blend global design standards with local craftsmanship.

Project

Project Name: Glordano

Client : El Shayyah Company

Consultant: El Shayyah

Main Contractor : Master Buildings Company

Location: across the kingdom of Saudi Arabia

Starting \ Ending Date: 2012 ---- 2015

Project Value: 12 Million Riyal

Project Description The Glordano project was a large-scale retail development undertaken across various locations in the Kingdom of Saudi Arabia between 2012 and 2015. Commissioned by El Shayyah Company and supervised by El Shayyah as the consulting entity, the project aimed to establish multiple high-end Glordano retail outlets. Master Buildings Company served as the main contractor, overseeing all phases of construction, interior finishing, and coordination with suppliers to ensure timely delivery and brand consistency. The total project value reached 12 million SAR, covering architectural, civil, electrical, and mechanical works tailored to international retail standards.

Project

Project Name: MAC (make-up cosmetics brand)

Client : El-Shayyah Company

Consultant: El-Shayyah Company

Main Contractor : Master Buildings Company

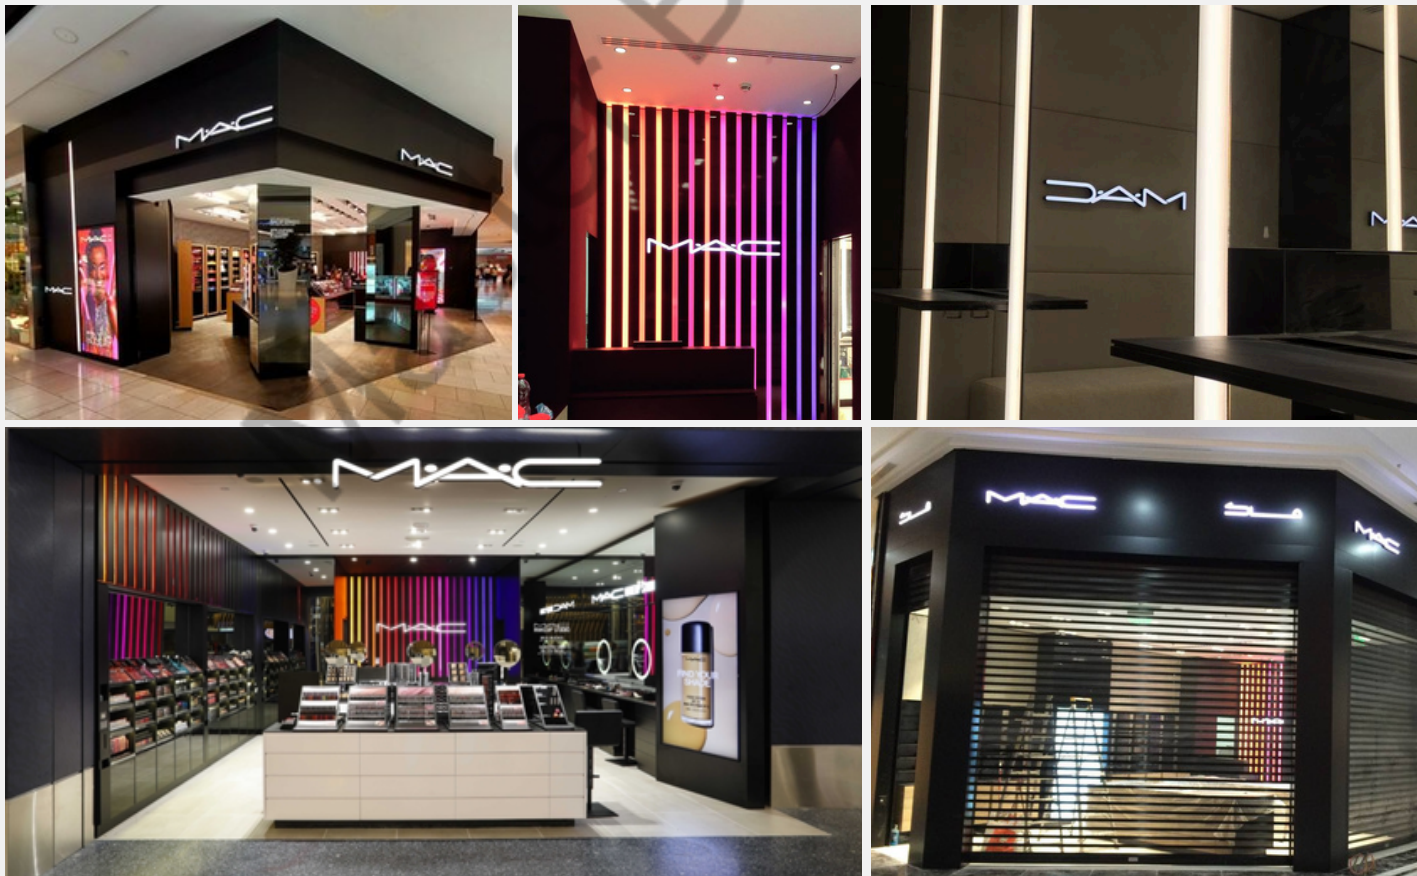

Location: across the kingdom of Saudi Arabia

Starting \ Ending Date: 2012 ---- 2015

Project Value: 12 Million Riyal

Project Description

The MAC project involved the construction and fit-out of several high-end retail outlets for the globally recognized cosmetics brand MAC, strategically located across the Kingdom of Saudi Arabia. Executed between 2012 and 2015, the project was commissioned and overseen by El-Shayyah Company, with Master Buildings Company serving as the main contractor. The scope included complete civil, electrical, and interior works tailored to the brand's international retail standards, emphasizing luxury finishes, lighting design, and customer experience optimization. With a total value of 12 million SAR, the project delivered premium commercial spaces that reinforced MAC's brand presence across the region.

Project

Project Name:	Claire's
Client :	El Shayyah Company
Consultant:	El Shayyah
Main Contractor :	Master Buildings Company
Location:	across the kingdom of Saudi Arabia
Starting \ Ending Date:	2012 ---- 2015
Project Value:	12 Million Riyal

Project Description	The Claire's project encompassed the development and interior fit-out of multiple retail stores for the international accessories and jewelry brand Claire's across key locations in the Kingdom of Saudi Arabia. Initiated in 2012 and completed in 2015, the project was managed and supervised by El Shayyah Company, with Master Buildings Company serving as the main contractor. The scope of work included civil construction, MEP (mechanical, electrical, and plumbing) installations, and high-quality interior finishes that reflect Claire's youthful and vibrant brand identity.
